Welcome to AdSense

Congratulations on taking your first steps with AdSense. So what do you need to do next?

Before you start earning you'll need to make sure your site is fully connected. This allows our team to start the review process and check that your site complies with our policies.

Simply copy the code from the AdSense homepage and paste it into the HTML of your site <https://loveumarketing.com/> right after the <head> tag.

Tip: Make sure to place the code on pages that receive traffic.

Our team will run a review over 1-2 days and we'll get the results over to you as soon as possible.

CONNECT YOUR SITE

Once your account is approved, here are some of the benefits you can expect:

1. See high quality ads, relevant to your audience.

2. Discover that advertisers are constantly bidding for space - meaning more money and more relevant ads.

3. Control what ads are seen (and which ones aren't).

Now have a look at how other publishers like you have been doing.
